Internships

Earn & Learn, Hillside Resource Center—*Summer Youth Intern*

June 2018 - August 2018

While interning at the Hillside Resource Center, I was involved in community outreach efforts. I organized community events that served as platforms for engagement, education, and empowerment. A key aspect of my role was assisting community members with practical needs, such as guiding them through the process of applying for school, and ensuring they had the necessary information and resources. Additionally, I directed individuals to our onsite medical clinic, helping them access essential healthcare services.
